

Providing greater cost transparency for plan members and providers

Real-time prescription benefits provides visibility to member plan and cost information across multiple points of care

Date

 **CVS**Health[®]

Formulary and plan design strategies are driving lower costs for members

Nearly 85% of members spent less than \$300 on their medications last year

CVS Health is committed to helping members find the most affordable options to keep them healthy

▶ **Sticker shock at the pharmacy can still happen...**

▶ **Growth in high deductible health plans means consumers shoulder the responsibility of navigating health and prescription benefit plans to make the most cost-effective choices**

Real-time prescription benefits provides greater cost transparency for members and providers

Greater visibility to plan member out-of-pocket (OOP) costs, lower-cost alternatives and benefit information

Helps providers and members make more informed treatment decisions

Integrated into prescriber's electronic health record (EHR) and workflow

Informing decisions through plan and cost transparency across all member touchpoints

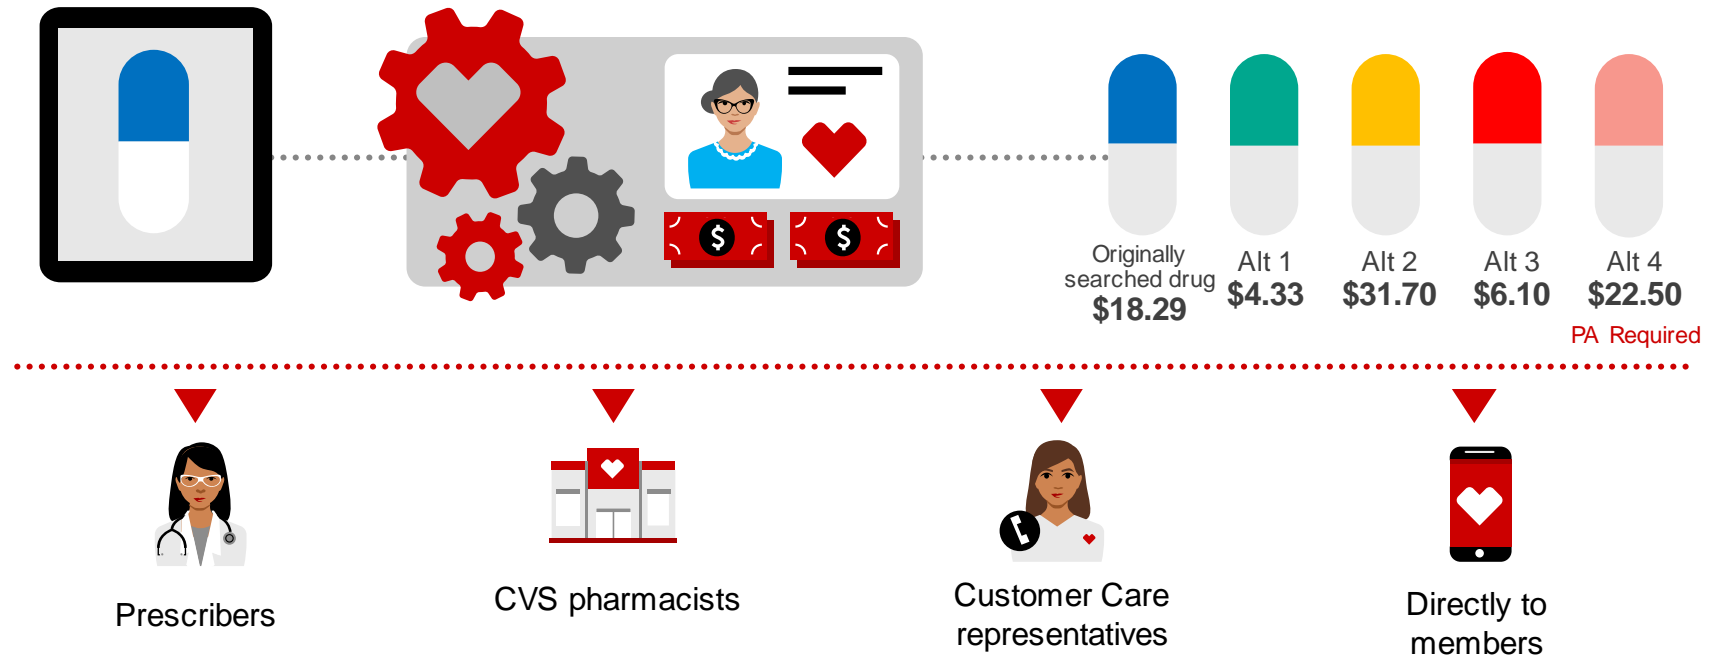

With **real-time prescription benefits**, members and providers will:

Know if the drug is covered and the member OOP cost

See up to five clinically appropriate alternatives specific to the member's plan design

Prescribers can also see which options require prior authorization (PA) or have other restrictions

Our proprietary engine, **Script Intelligence**, powers our unique database of clinically mapped therapeutic alternatives

—
Appendix
—

Ease of use for prescribers

A response on alternative therapies within
1 second on average

An approval decision on an electronic PA request in as little as **6 seconds**

This helps get more affordable medications to members faster

Real-time prescription benefits help ensure the right prescription is written from the start

Legal disclaimers

The source for data in this presentation is CVS Health Enterprise Analytics unless otherwise noted.

All data sharing complies with applicable law, our information firewall and any applicable contractual limitations.

Adherence results and savings projections are based on CVS Caremark data. Actual results may vary depending on benefit plan design, member demographics, programs implemented by the plan and other factors. Client-specific modeling available upon request.

The Maintenance Choice program is available to self-funded employer clients that are subject to ERISA. Non-ERISA plans such as fully insured health plans, plans for city, state or government employees and church plans need CVS Caremark legal approval prior to adopting the Maintenance Choice program. Prices may vary between mail service and CVS Pharmacy due to dispensing factors, such as applicable local or use taxes.

Specialty Expedite is available exclusively for providers who use compatible electronic health record (EHR) systems, including Epic Systems and others that participate in the Carequality Interoperability Framework.

Specialty delivery options are available where allowed by law. In-store pick up is currently not available in Oklahoma. Puerto Rico requires first-fill prescriptions to be transmitted directly to the dispensing specialty pharmacy. Products are dispensed by CVS Specialty and certain services are only accessed by calling CVS Specialty directly. Certain specialty medication may not qualify. Services are also available at Long's Drugs locations.

ExtraCare Health program availability subject to Legal and Tax approval. Client adopts the ExtraCare Health Card as part of its plan benefit. Clients must meet Underwriting criteria to implement the ExtraCare Health Card.

Patient stories and patient names are presented for illustrative purposes only. Any resemblance to an actual individual is coincidental. Unless otherwise specified, images contained within are licensed or the property of CVS Health or one of its affiliates.
